THE BEST SELLERS

Suction cup mounts

LM-500H: Low vibration suction cup mount with large side grip holder

LM-502H: Suction cup holder with slim side grip holder (for IC-208 head or similar) Max device length is 4.75” Inset picture below shows the LM-502H

LM-500H

Attach to the windshield (if local laws permit) and adjust the pedestal arm to allow the device to rest on the dashboard for stability, or place the included adhesive disk onto the dash and attach the suction cup to the disk surface.

Several connection options are included

- **AMPS plate** (attach your existing remote head bracket)
- **Side grip holder** (LM-500H left)
- **Narrow holder** (LM-502H, inset)
- **Microphone button/belt clip holder** (right)
- **Adhesive disk for suction cup**

LM-400EXP: 7” gooseneck suction cup mount

Included connection options:

- **AMPS plate** (to attach your existing remote head bracket, right)
- **Microphone button/belt clip holder** (inset, right)

The 7” gooseneck design allows the mount to be installed in compact areas and adjusted for easy reach and convenient viewing.

If you do not have the remote head bracket, these side grip holders are sold separately.

LM-H: Standard side grip holder

LM-H208: Slim side grip holder for small remote heads like the IC-208 (max length 4.75”)
